EDUCATION

University of California, Irvine (UCI) — Irvine, CA
- Business Analytics M.S. – Paul Merage School of Business **2025-2026**
- Economics B.A. – School of Social Sciences **2020-2023**

EXPERIENCE

Hyundai Capital America (HCA) — Irvine, CA
Content & Training Design, Analytics Intern **06/2026-08/2026**
- Audited the department's master STP Tracker spanning hundreds of logged ILT and eLearning trainings, identifying duplicate entries, structural errors, and inconsistent performance benchmarks across departments.
- Redesigned the tracker's data structure end to end, establishing primary and foreign key relationships and an automated workflow to replace a fully manual, copy-paste-driven process.
- Architected a suite of Tableau dashboards on the rebuilt data, giving leadership real-time visibility into training completion and performance trends; built rollout materials and presented the system to HCA executives, department heads, and managers.

Anaheim Ducks Hockey Club & The Rinks — Anaheim, CA
Student Business Data Analyst **01/2026-06/2026**
- Served as analysis lead for a five-person team, owning the project end-to-end from data extraction and dashboard development through final reporting and executive presentation, while coordinating biweekly meetings with client stakeholders and our UCI faculty advisors.
- Designed and executed SQL queries in SSMS across two enterprise systems to build five analysis-ready datasets covering LTP registration, cohort retention, program sequencing, and ticket sales crossover for 1,285 participants, applying business logic including revenue calculations across primary and secondary market channels.
- Built eight interactive Power BI dashboards across three analyses (Registration, Retention, and Ticket Sales Crossover), surfacing a structural retention gap and demographic purchasing patterns that informed retention and marketing recommendations presented to Ducks and Rinks executive teams.

UCI Center for Educational Partnerships — Irvine, CA
EAOP Program Coordinator **04/2025-09/2025**
- Coordinated event logistics and programming for key K-16 initiatives including the Choosing a Major Conference, Southern California UC Tours, Nursing Camp in Summer, and UC Bootcamp; managed outreach, transportation, documentation, and day-of execution across campus and community sites.
- Developed and hosted interactive workshops on interviewing techniques, college pathways, and major exploration, tailoring content to UCI's Business, Engineering, and Social Sciences schools through independent curriculum research.
- Produced and hosted a multi-part webinar series on UCI's nursing, business, and engineering pathways, guiding high school students through major requirements, career trajectories, and program structure.

UCI Basic Needs Center — Irvine, CA
Program Coordinator **01/2024-08/2024**
- Directed food security initiatives including CalFresh Assistance Appointments, Fresh Finances, CalFresh Enrollment Parties, and large-scale events such as UCI Orientation, Celebrate UCI, and the Mobile Pantry Grand Opening; managed end-to-end logistics including venue coordination, catering, transportation, and day-of execution in partnership with UCI Student Services, UCI Transportation, and Orange County Social Services.
- Managed data entry and analysis for CalFresh services, implementing a new Excel system with pivot tables, advanced functions, and conditional formatting that tracked eligibility data, reporting timelines, and confidential case details, resulting in a 50% improvement in data management efficiency.
- Restructured the center's data reporting system to standardize how CalFresh appointment trends, program utilization, and operational KPIs were tracked and formatted, aligning outputs with CSUN grant reporting requirements and simplifying the compliance process for external partners.

SKILLS

Technical: Excel (Solver, Pivot Tables, Advanced Functions, Power Query), Tableau, SQL, Python, Power BI, R
Strengths: Adaptability, Data Visualization, Collaboration, Analytical Thinking, Project Management, Time Management
